Cities Skylines 25 Tiles Mod No Steam

This mod makes no changes to the game engine and simply changes the amount of tiles you can unlock.. Exploit: when starting a game with no mods active, it is possible to have the ability to unlock all 25 tiles in the city.. This occurs for both saves (on Allows cities to be 25 tiles big instead of only 9 Summary By default the.. I uninstalled this mod, will I still be able to play my save?Normally yes, although I can not guarantee it as there's no indication of this in the official modding API.. By not going higher than 25 you ensure your saves will keep working with newer releases of Cities Skylines without depending on the mod being updated if it breaks.

With newer releases of Cities Skylines without depending on the mod If you liked this item, please rate it up on Steam Workshop page.. So if you have a game saved with 25 tiles, even with the mod uninstalled, you should still be able to play it with the full 25 tiles unlocked.. Why only 25 and not 81?The game engine was designed to support up to 25 tiles as specified by the official modding API, anything higher requires deeper changes in its core.. I installed the mod, how do I enable it?Once you've subscribed to it, head to 'Content Manager' in the game main menu, select Mods on the left, scroll to this mod, check the on/off checkbox to enable it.. What mods does this mod work with?Any mod that doesn't make changes to the map size will very certainly work properly.. This mod sets the limit of purchasable tiles to 25, so that you can still expand more once the last milestone has been reached.
